BUSINESSES

Excellent Organisations achieve and sustain superior levels of performance that meet or exceed the expectations of all their stakeholders

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with over 9000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from 294 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

As India marches towards its 75th year of Independence in 2022, CII, with the Theme for 2021-22 as Building India for a New World: Competitiveness, Growth, Sustainability, Technology, rededicates itself to meeting the aspirations of citizens for a morally, economically and technologically advanced country in partnership with the Government, Industry and all stakeholders.

With 62 offices, including 10 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with 394 counterpart organizations in 133 countries, CII serves as a reference point for Indian industry and the international business community.

ABOUT THE TROPHY Coveted.

The trophy was designed for three specific facets of all that Excellence, an organisation, stands for.

The three columns represent the organisation's people, processes and performance.

The orb or globe at the apex represents the synergy of an organisation wherein all the elements are harmoniously integrated at its pinnacle.

The columns are polished, reflecting continuous effort the best mantra for excellence and competitiveness, resulting an agile organisation. The gold sheen is representative of nobility.

The polished granite base upon which everything rests symbolises the unflinching commitment of the leadership.

The trophy was specifically designed by National Institute of Design, Ahmedabad.

CII-EXIM BANK AWARD FOR BUSINESS EXCELLENCE Aspired for.

FOREWORD

CII Institute of Quality has been promoting the cause of Quality over the last two decades through several initiatives. In the year 1994, Confederation of Indian Industry promoted the EFQM based Business Excellence Model in India with an objective of enhancing the competitiveness of Indian Industry, to world-class level. Since its inception, the CII-EXIM Bank Award for Business Excellence has been encouraging the Indian Industry to strengthen their management systems, practices and capabilities to enhance and sustain their competitiveness and become world-class organisations. Several organisations both from private and public sectors have adopted The Excellence Model as a framework for the holistic management and greatly benefited by participating in the award assessment process.

Small and Medium Business (SMB) organisations form the backbone of Indian economy and play an important role in its socio economic growth. Besides being an important entrepreneurial engine, they are the largest employment generator. Small and Medium Business, either as suppliers to large OEM organisations or as providers of products and services to the market place, have made a significant contribution in this growth and adopted several good manufacturing and quality practices, such as 5S, ISO 9000, TS 16949, TPM, TPS etc to improve their productivity and competitiveness.

However, to sustain the competitiveness in the highly competitive local and global markets, SMB's need to develop their capability in other important areas of management e.g., product development, strategic planning, financial management, leadership and people. SMB organisations need to establish appropriate management framework, with clear purpose to build this capability. The Excellence Model provides a practical and holistic tool to achieve this objective.

CII Institute of Quality has adopted the comprehensive Excellence Model for SMBs considering the emerging ecosystem demands but the document submission and the Assessment processes are kept simple with a view to facilitate larger participation of the SMBs, in terms of effort and total costs.

We strongly urge the Small and Medium Business organisations to participate in the award this year and get benefit of an external feedback for improvement and also an opportunity for getting national recognition.

1.0 About the Award

Regardless of sector, size, structure or maturity, The Excellence Model is a practical and holistic tool to improve the quality of management in all organisational aspects and address the challenges mentioned above. The model can be used in a number of ways:

- As a structure for the organisation's management system
- As a tool for Self-Assessment by measuring where they are on the path to excellence; helping them understand the gaps; and then stimulating solutions;
- As a framework for positioning existing initiatives, and identifying gaps;
- As an assessment criteria for reward and recognition.

The CII-EXIM Bank Award for Business Excellence has been instituted to achieve the following objectives:

- Provide and promote a holistic framework of management for Excellence
- Recognise outstanding Small and Medium Business organisations and present them as role models and encourage others to emulate
- Identifying and sharing best practices, performance and strategies
- Provide an external perspective to the organisations on their practices and performance through a comprehensive feedback report

2.0 Need for a Model

Small and Medium Business organisations have several advantages due to their size and simplicity that makes them competitive. However, they also face several challenges to meet ever growing demands of competitive local and global markets.

Some of the common challenges irrespective of sector and location are as follows:

- How to manage their business in a more professional manner as they grow in size and complexities?
- How to integrate the operational and strategic management to build sustainable competitiveness and growth?
- How to assess the strengths of weaknesses of the organisation beyond financial and operational performance parameters and develop a road map for transformation?
- How to evaluate the effectiveness of various improvement initiatives and make appropriate interventions to achieve excellence?

3.0 Excellence Model and RADAR

3.1 Overview

The New Excellence Model released in October 2019 continues to set the management agenda for any organisation wanting a long term, sustainable future. The model has 5 criteria covering Direction and Execution and 2 criteria on results, both perceptins and performance.

8.0 Levels of Recognition

There are three levels of recognition, starting from 'GOLD PLUS' and going up to the AWARD. These levels signify the various milestones, which the Organisations can aim for as they progress on their journey towards Excellence. Therefore, Organisations at different levels of competitiveness can benefit from participating in the Award Process.

The Award Criteria used for assessing is based on the EFQM Excellence Model, and hence provides a mechanism to benchmark against world-class Organisations, which are using TQM to drive Excellence.

Awards are presented to Organisations that demonstrate Excellence in the management of Quality as their fundamental process for continuous improvement – the leaders in their respective category.

Organisations are commended which have made good progress on their journey towards Excellence, but fall short of the level set for Awards Winners. There are Two Levels of Commendations:

- **PLATINUM**
- **GOLD PLUS**

Apart from getting an opportunity for peer recognition, each Organisation gets an external perspective on their practices and performance. A team of trained assessors with diverse and extensive experience assesses each Applicant Organisation. The assessors spend around 1000 man-hours to identify strengths and opportunities for improvement. A detailed feedback report is sent to all the Applicant Organisations that gives an objective and comprehensive assessment of the current status of the Organisation and forms a sound basis for developing Organisation-wide consensus on strategy for reaching higher levels of competitiveness.
